MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Use of Interfacility Credentials Transfer Brief for Privileging during Reserve Component Annual Training

1. This memorandum is to clarify the documentation required in support of the Interfacility Credentials Transfer Brief (ICTB) when privileging Reserve Component (RC) providers at Army health care facilities.

2. The Department of Defense (DOD) and the Joint Commission for the Accreditation of Healthcare Organizations have recognized and approved the use of the ICTB to privilege providers at DOD facilities. When processing ICTBs on RC providers, copies of current privileges from civilian employers or other appropriate documents supporting competency in requested privileges and a DA Form 5754, Malpractice and Privileges Questionnaire, dated within the last 24 months will be attached. If there is additional adverse performance or licensure information, it will be made available to the privileging facility upon request.

3. The privileging facility will initiate a National Practitioner Data Bank Query if none has been done by a military facility in the current 2-year privileging cycle. In addition, the privileging facility will send the National AMEDD Augmentation Detachment (NAAD) provider or unit point of contact the following documents when notified of the provider's or unit's annual training schedule.

a. Facility specific DA Form 5440A-R Delineation of Privileges

b. Facility specific release of information and attestation letter

c. Facility specific DA Form 5440XX-R, Delineation of Privileges for specialty

4. The credentialing unit will be responsible for ensuring that there are current peer reference letters, civilian privileges or job description, curriculum vitae, DA Form 5754-R, and release of information letters in the provider's credentials file. Current is defined as within 2 years of the requested privileging period at the medical treatment facility (MTF). Additionally, the credentialing unit will be responsible for ensuring that the provider's documents are provided to the MTF within the time frame specified.
