

**Anesthesiology**
 Version 1.0

 Scope

**C** **P384980:** The scope of privileges in anesthesiology includes administration of anesthesia and administration of all levels of sedation for pediatric and adult patients. This includes pre-, intra-, and postoperative evaluation, treatment and the support of life functions and vital organs under the stress of anesthetic, surgical, and other procedures. Anesthesiologists provide acute and chronic pain management and consultation. Anesthesiologists may provide care to patients in the intensive care setting in accordance with MTF policies. Additionally, they may assess, stabilize, and determine the disposition of patients with emergent conditions in accordance with medical staff policy.

 **Diagnosis and Management (D&M)**

**C** **P385028:** Management of malignant hyperthermia

**C** **P388337:** Mechanical ventilatory management (invasive and noninvasive)

**C** **P388353:** Central venous pressure monitoring

**C** **P388919:** Initiation and management of patient-controlled analgesia, intrathecal and epidural

**C** **P390328:** Pulmonary artery catheter insertion and interpretation

 **Procedures**

**C** **P385044:** Double lumen tube placement for single lung ventilation

**C** **P385046:** Fiberoptic bronchoscopy

**C** **P385066:** Intraoperative transesophageal echocardiography (TEE) - includes TEE probe insertion and basic echocardiography diagnosis

**C** **P388370:** Endotracheal intubation

**C** **P388451:** Cricothyrotomy

**C** **P388933:** Ultrasound guidance for vascular access and regional anesthesia

**C** **P390707:** Central venous catheter insertion

 **Anesthesia**

**C** **P388923:** General anesthesia

**C** **P388925:** Spinal anesthesia

**C** **P387323:** Peripheral nerve block anesthesia

**C** **P387317:** Topical and local infiltration anesthesia

**C** **P388406:** Moderate sedation

**P388941:** Advanced nerve block techniques (includes continuous catheter techniques)

**C** **P387333:** Regional nerve block anesthesia

 **Anesthesia for the following specialty categories:**

**C** **P385052:** Anesthesia for the following specialty category: Non-cardiac thoracic

**C** **P385054:** Anesthesia for the following specialty category: Major vascular

**C** **P385056:** Anesthesia for the following specialty category: Neurosurgical

**C** **P385058:** Anesthesia for the following specialty category: Obstetric anesthesia and analgesia

**C** **P385060:** Anesthesia for the following specialty category: Pediatric anesthesia, age 1 month to 2 years

**P385062:** Anesthesia for the following specialty category: Organ transplant (other than liver and cardiac)

 **Pain management procedures**

**C** **P385068:** Peripheral nerve blocks

**C** **P385070:** Lumbar / thoracic epidural injection for pain control

**C** **P385072:** Trigger point blocks

**C** **P385074:** Epidural blood patch

 **Procedure Advanced Privileges (Requires Additional Training):**

**P384986:** Intermediate intraoperative transesophageal echocardiography (TEE) - Includes basic TEE plus qualitative and quantitative monitoring of cardiac systolic function and ventricular loading conditions

**P384988:** Advanced intraoperative transesophageal echocardiography (TEE) -more complex patients. Requires expert training in TEE

**P384990:** Transcranial doppler monitoring

**P384992:** Evoked potential / neurophysiologic monitoring

**P384994:** Pediatric anesthesia, age birth to 1 month (term neonates)

-  **P384996:** Pediatric anesthesia, premature infants (age less than 38 weeks conceptual age)
-  Anesthesia for the following specialty categories:
  -  **P384982:** Anesthesia for the following specialty category: Cardiac to include management of cardiopulmonary bypass (CPB)
  -  **P384984:** Anesthesia for the following specialty category: Anesthesia for liver transplant
-  Advanced Pain Management Procedures Privileges (formal pain management training).
  -  **P384998:** Fluoroscopic guided procedures
  -  **P385000:** Cervical epidural injection for pain control
  -  **P385002:** Implantation and subcutaneous tunneling of Intrathecal / epidural catheter
  -  **P385004:** Chemical / thermal neurolysis of sympathetic nerves
  -  **P385006:** Chemical / thermal neurolysis of peripheral nerves
  -  **P385008:** Chemical / thermal neurolysis of cranial nerves
  -  **P385010:** Chemical / thermal neurolysis via epidural or subarachnoid approach
  -  **P385012:** Percutaneous spinal cord stimulation
  -  **P385014:** Implantation of epidural stimulation lead and pulse generator / receiver
  -  **P385016:** Intrathecal analgesic / antispasmodic
  -  **P385018:** Implantation of permanent intrathecal catheter and infusion pump
  -  **P385020:** Thermal zygapophyseal joint denervation
  -  **P385022:** Intervertebral disc injection
  -  **P385024:** Intradiscal electrothermal therapy (IDET)
  -  **P385026:** Percutaneous vertebroplasty
-  Other (Facility- or provider-specific privileges only):
