

Certified Nurse Midwife (CNM)
 Version 1.0

 Scope

C **P385881**: The scope of privileges for CNMs includes the evaluation, diagnosis, and management of women's health care, focusing particularly on pregnancy, childbirth, the post partum period, care of the newborn, and the family planning and gynecologic needs of women. Care is provided for uncomplicated pregnancy, labor, and vaginal delivery. CNMs may provide consultation, collaborative management, or referral to physicians with privileges to provide care in this specialty area. CNMs also promote health and risk reduction.
