

General Dentistry
 Version 1.0

 Scope

C **P387000:** The scope of privileges in general dentistry includes the evaluation, diagnosis, consultation, management, and provision of therapy and treatment for patients of all ages presenting with conditions or disorders involving the oral cavity and its associated structures. Dentists may assess, stabilize, and determine disposition of patients with dental diseases and disabilities or dysfunctions. They order and interpret radiographs and diagnostic tests to determine the type and extent of dental diseases. Dentists restore health and function of carious, fractured, otherwise defective teeth and perform routine preventive, periodontal, oral surgery, endodontic, and prosthodontic treatments.
