

Maxillofacial Prosthodontics
 Version 1.0

 Dental providers requesting privileges in this specialty must also request privileges in General Dentistry and Prosthodontics

 Scope

P387521: The scope of privileges in maxillofacial prosthodontics includes the ability to evaluate, diagnose, consult, manage, and provide therapy and treatment for patients of all ages presenting with acquired, congenital and developmental defects of the head and neck and of methods used to maintain the oral health of patients. Practitioners may assess, stabilize, and determine disposition of these patients.

 Diagnosis and Management (D&M):
