

 **Pediatric Dentistry**  Version 1.0  Dental providers requesting privileges in this specialty must also request privileges in General Dentistry.  Scope

 **P390230:** The scope of privileges in pediatric dentistry includes the evaluation, diagnosis, consultation, management, and provision of therapy and treatment for pediatric patients presenting with conditions or disorders involving the oral cavity and its associated structures. Pediatric dentists may assess, stabilize, and determine disposition of patients with dental diseases and disabilities or dysfunctions. They interpret radiographs and diagnostic tests to determine the type and extent of dental diseases. Dentists restore function of carious, fractured, otherwise defective teeth, provide behavior management techniques and perform routine preventive, periodontal, oral surgery, endodontic, and prosthodontic treatment. Practitioners may provide care to patients in the operating room setting in accordance with MTF policies.

  Diagnosis and Management (D&M):  Procedures:

 **P390232:** Obturator prosthesis

 **P390234:** Tooth extraction: mesiodens, anterior supernumeraries, immature premolars in conjunction with serial extraction treatment

 **P390236:** Orthodontic treatment: limited to minor tooth movement, craniofacial analysis, expansion appliances, functional appliances, sectional arch wires, utility archwire, 2x4 and 2x6 appliances, extraoral traction devices, fixed and removable retainers, and habit correction appliances

 **P390238:** Nonsurgical management of temporomandibular disorders (pediatric patients)

 **P390240:** Pediatric procedural sedation

 **P390244:** Pulpotomy (deciduous tooth)

 **P387251:** Space maintenance

 **P390189:** Comprehensive orthodontic treatment

  Other (Facility- or provider-specific privileges only):
