

2012

National Patient Safety Goals

Keeping the Pieces Together for Safe Outcomes

Goal 1

Improve the accuracy of patient Identification

Goal 3

Improve the safety of medications.

Goal 7

Reduce the risk of health care-associated infections

Goal 15

Identify patients at risk for suicide

- Conduct pre-procedure verification, Mark the procedure site, perform a time out

Goal 2

Report results of critical test and diagnostic procedures in a timely manner

Universal Protocol

First Place
Medical General
Patient Safety Category

Blanchfield ACH

Patient Involvement is Key!
Include the patient in marking the procedure site.

Fort George G. Meade MEDDAC

Second Place

Medical General Patient Safety Category

Fort Meade MEDDAC

Our health care process should be as safe as our
smallest team member
Active involvement is key—from patient to health
care provider

One Team + One Goal = Safe Health Care

Lets keep them smiling-keep them safe!
