PATIENT SAFETY AWARENESS WEEK

2-8 MARCH 2014

Ask Me 3 is a patient education program designed to *improve communication between patients and health care providers, encourage patients to become active members of their health care team, and promote improved health outcomes.* The program encourages patients to ask their health care providers three questions:

What is my main problem?

What do I need to do?

Why is it important for me to do this?

Patient Safety Week March 3-7

**WE KNOW WHO SHE IS
BUT WE STILL HAVE TO ASK
THOSE TWO IMPORTANT
QUESTIONS!**

1. Patient Identification
 - Full name
 - Date of birth

Don't Get A D.U.I.

(Delivering Unknown Infections)

Put up a Road-Block for Disease

- Wash your hands before and after each patient
- Wear gloves when coming in contact with any and all patients
- Disinfect area and equipment after each use
- Properly dispose of all bio-hazardous waste

Proper PPE could potentially save your life
