

TeamSTEPPS™

E-Guide to Action

E-Guide to Action

E-Guide to Action

COURSE OBJECTIVES

Upon completion of this course, you will be able to:

- List the evidence-base for TeamSTEPPS
- Describe the TeamSTEPPS curriculum offerings
- Describe the knowledge, skills and attitudes of Teams
- List the tools available to Teams thru TeamSTEPPS
- Describe the TeamSTEPPS Implementation process

Course Duration expected:
50 minutes

**Team Strategies & Tools to Enhance Performance & Patient Safety, "TeamSTEPPS," is scientifically rooted in over 20 years of research and lessons learned from the application of teamwork principles in High-Reliability Organizations (HROs). For more information contact:
<http://dodpatientsafety.usuhs.mil/teamstepps>*

The on-line learning guide presents an overview of TeamSTEPPS principles, methodologies, training curricula, and resources while providing a brief discussion of the scientific foundation.*

Target Audience:
All leaders, change team members, prospective trainers, coaches, patient safety officers, performance improvement representatives interested in creating a culture of safety

- The E-Guide to Action link on JKO is as follows:
Navigate to PSLC using Army URL (<https://www.us.army.mil/suite/page/595412>)
- To take the course, you must register and log in the system. Browse for the course in the same manner as outlined above.
